WORLD™ DIESEL SERIES

THE AFFORDABLE DIESEL FORKLIFT YOU CAN DEPEND ON

WORLD LIFT

WORLD DIESEL SERIES

SMART COMPANIES CHOOSE WORLD FORKLIFTS

The World forklift line has all the same benefits and features you expect from a cutting-edge forklift manufacturer, but at a significantly lower price point. The World Diesel forklift is for outdoor use like lumberyards, ports, and construction sites or open warehouses. Equipped with an expansive array of standard features, the award-winning World forklift line is quickly becoming the forklift of choice for smart companies. Get the job done, without breaking the bank.

- Award-winning
- Affordable
- Name brand components
- Expansive list of standard features
- Grant approved
- Cutting-edge technology

KEY BENEFITS

- Meets Tier 4 emission standards, utilizing Nissan K25 and Cummins Tier IV engines
- IMPCO injection fuel system offers proven durable technology in an economic package
- Affordable at a fraction of the cost of other diesel forklifts
- Automatic power shift transmission with separate inching and brake pedals ideal for use on ramps and inclines
- Safety features like daylight strobes, back-up alarms and a variety of warning systems
- Standard shift shifter and third valve with hosing
- EPA Compliant; CE Certified; meets or exceeds all ANSI B56.1
- Range of capacities from 4,000 lbs. to 15,000 lbs.
- Customized exterior colors

REDUCED EMISSIONS & BUILT TO LAST

Utilizing Nissan K25 and Cummins Tier IV engines, the World Diesel Series offers proven durable technology in an economic package. The Cummins B3.3 is built to last, with a cast-iron parent bore block designed for durability and reliability

SIMPLICITY & RELIABILITY = REDUCED MAINTENANCE

Say goodbye to complex electrical components that require specialized mechanical expertise. World Diesel forklifts use dependable, yet simple components making them easy to maintain. Plus, advanced diagnostics software assist with maintenance and repairs.

- Fully hydrostatic power steering for smoother operation and fewer parts to maintain, with the largest cylinder and thickest steel for the best protection of any forklift in its class
- Large hydraulically actuated drum and shoe type brakes for positive braking performance and ease of maintenance. Mechanical-lever type parking brake for added reliability
- High visibility masts with side thrust rollers in the carriage for smoother operation and longer mast components life

COST SAVINGS

The World Rough Terrain Diesel series is the most cost effective diesel in its class. At a fraction of the cost of other diesel forklifts, companies save thousands of dollars for a dependable, reliable, and powerful forklift that meets the demands of a wide variety of outdoor environments.

SAFETY

Daytime strobe lights, back-up alarms and a variety of warning systems are among the many safety features that come standard on the World Diesel.

COMFORT

Dash-mounted control handles allow operators to easily enter from either side. Tilt steering wheel, ample leg room, adjustable seats, safety load backrest, and optional climate control cabs keeps operators comfortable for maximum productivity.

RANGE OF MODELS AND COLORS

Capacity ranges from 4,000 lbs. to 15,000 lbs., with the option to customize exterior colors.
